We were able to reduce the spread on this securitization due to strong investor demand to better match the underlying growth in the Company. PennantPark currently manages approximately \$3.7 billion in middle-market securitization assets, and we look forward to continued growth of our platform with the support of our current and new investors.”

PFLT will continue to retain the Subordinated Notes through a consolidated subsidiary. The maturity of the replacement Debt is now extended to April 2038. The replacement Debt was 100% funded at closing. In addition, PFLT continues to act as retention holder in the transaction to retain exposure to the performance of the securitized assets.
