## Unrealized Appreciation or Depreciation on Investments, the Credit Facility and the 2023 Notes

This compares to a net change in net assets resulting from operations of \$1.9 million, or \$0.05 per share, for the three months ended December 31, 2017. ## LIQUIDITY AND CAPITAL RESOURCES

Our liquidity and capital resources are derived primarily from proceeds of securities offerings, debt capital and cash flows from operations, including investment sales and repayments, and income earned. Our primary use of funds from operations includes investments in portfolio companies and payments of fees and other operating expenses we incur. We have used, and expect to continue to use, our debt capital, proceeds from the rotation of our portfolio and proceeds from public and private offerings of securities to finance our investment objectives.

The annualized weighted average cost of debt for the three months ended December 31, 2018 and 2017, inclusive of the fee on the undrawn commitment of 0.375% on the Credit Facility, amendment costs and debt issuance costs, was 5.29% and 7.75%, respectively (excluding amendment and debt issuance costs, amounts were 4.37% and 3.80%, respectively).

As of December 31, 2018 and September 30, 2018, we had \$350.9 million and \$333.7 million of outstanding borrowings under the Credit Facility, respectively. The Credit Facility had a weighted average interest rate of 4.34% and 4.25%, exclusive of the fee on undrawn commitments as of December 31, 2018 and September 30, 2018, respectively. As of December 31, 2018 and September 30, 2018, we had \$169.1 million and \$71.3 million of unused borrowing capacity under our Credit Facility, respectively, subject to the regulatory restrictions.

As of December 31, 2018 and September 30, 2018, we had cash equivalents of \$35.2 million and \$72.2 million, respectively, available for investing and general corporate purposes. We believe our liquidity and capital resources are sufficient to take advantage of market opportunities.

Our operating activities used cash primarily for our investment activities and our financing activities provided cash primarily from net borrowings under the Credit Facility.

Our operating activities used cash primarily for our investment activities and our financing activities provided cash primarily from our recent equity offering, the issuance of the 2023 Notes and net borrowings under the Credit Facility.
