RESULTS OF OPERATIONS

Set forth below are the results of operations for the three and nine months ended June 30, 2016 and 2015.

Investment Income

Investment income for the three and nine months ended June 30, 2016 was $10.8 million and $30.9 million, respectively, and was attributable to $9.0 million and $26.0 million from senior secured loans and the remainder from second lien secured debt and subordinated debt. This compares to investment income for the three and nine months ended June 30, 2015, which was $7.1 million and $22.6 million, respectively, and was attributable to $5.4 million and $17.4 million from senior secured loans and the remainder from second lien secured debt and subordinated debt. The increase in investment income compared to the same periods over the prior year was primarily due to the growth of our portfolio.

Expenses

Expenses for the three and nine months ended June 30, 2016 totaled $4.0 million and $11.7 million, respectively. Base management fee for the same periods totaled $1.3 million and $3.6 million, incentive fee totaled $0.5 million and $1.3 million, our $350 million multi-currency, senior secured revolving credit facility, or the Credit Facility, expenses totaled $1.3 million and $4.2 million (including $0.9 million of amendment expenses) and general and administrative expenses totaled $0.9 million and $2.6 million, respectively. This compares to expenses for the three and nine months ended June 30, 2015, which totaled $3.0 million and $8.5 million, respectively. Base management fee for the same periods totaled $0.9 million and $2.6 million, incentive fee totaled $0.6 million (including zero on net realized gains and $0.1 million on net unrealized gains accrued but not payable) and $1.7 million (including $(0.4) million on net realized gains and $(0.2) million on net unrealized gains accrued but not payable), Credit Facility expenses totaled $1.0 million (including $0.2 million of Credit Facility amendment expenses) and $2.6 million (including $0.2 million of Credit Facility amendment expenses), general and administrative expenses totaled $0.4 million and $1.3 million and excise taxes were $0.1 million and $0.3 million, respectively. The increase in expenses compared with the same periods in the prior year was primarily due to Credit Facility amendment expenses and base management fee as a result from the growth of our portfolio.

Net Investment Income

Net investment income totaled $6.8 million and $19.2 million, or $0.26 and $0.72 per share, for the three and nine months ended June 30, 2016, respectively. Net investment income totaled $4.1 million and $14.0 million, or $0.28 and $0.94 per share, for the three and nine months ended June 30, 2015, respectively. The decrease in net investment income per share compared to the same periods in the prior year was primarily due to the issuance of new shares in connection with our acquisition of MCG Capital Corporation in August 2015.

Net Realized Gains or Losses

Sales and repayments of investments for the three and nine months ended June 30, 2016 totaled $40.3 million and $97.1 million and net realized gains (losses) totaled $0.2 million and $(2.0) million, respectively. Sales and repayments of investments totaled $53.2 million and $146.2 million and realized gains totaled zero and $0.4 million for the three and nine months ended June 30, 2015, respectively. The change in realized gains (losses) compared with the same periods in the prior year was primarily due to the changes in market conditions of our investments and the values at which they were realized.

Unrealized Appreciation or Depreciation on Investments and Credit Facility

For the three and nine months ended June 30, 2016, we reported a net change in unrealized appreciation (depreciation) on investments of $6.1 million and $(0.1) million, respectively. For the three and nine months ended June 30, 2015, we reported a net change in unrealized appreciation (depreciation) on investments of $0.7 million and $(3.4) million, respectively. As of June 30, 2016 and September 30, 2015, our net unrealized depreciation on investments totaled $6.2 million and $6.0 million, respectively. The net change in unrealized appreciation (depreciation) on our investments was driven primarily by changes in the capital market conditions, financial performance of certain portfolio companies, and the reversal of unrealized depreciation (appreciation) of investments sold.

For the three and nine months ended June 30, 2016, our Credit Facility had a net change in unrealized depreciation of $0.3 million and $0.5 million, respectively. For the three and nine months ended June 30, 2015, our Credit Facility had a net change in unrealized depreciation of zero and $0.2 million, respectively. As of June 30, 2016 and September 30, 2015, net unrealized depreciation on our Credit Facility totaled $0.5 million and zero, respectively. The change in net unrealized depreciation compared to the same periods in the prior year was primarily due to changes in the capital markets.

Net Change in Net Assets Resulting from Operations

Net change in net assets resulting from operations totaled $13.4 million and $17.6 million, or $0.50 and $0.66 per share, respectively, for the three and nine months ended June 30, 2016. This compares to a net change in net assets resulting from operations which totaled $4.7 million and $11.3 million, or $0.32 and $0.76 per share, respectively, for the three and nine months ended June 30, 2015. We intend to continue to find attractive investment opportunities to grow net assets from operations.

LIQUIDITY AND CAPITAL RESOURCES

Our liquidity and capital resources are derived from public offerings, our Credit Facility, cash flows from operations, including investment sales and repayments, and income earned. Our primary use of funds from operations includes investments in portfolio companies and payments of fees and other operating expenses we incur. We have used, and expect to continue to use, our Credit Facility, the rotation of our portfolio and proceeds from public and private offerings of securities to finance our investment objectives.

As of June 30, 2016 and September 30, 2015, we had $190.9 million and $29.6 million of outstanding borrowings under the Credit Facility, respectively. The Credit Facility had a weighted average interest rate of 2.50% and 2.20%, excluding undrawn commitment fees of 0.50% and 0.75%, as of June 30, 2016 and September 30, 2015, respectively. The annualized weighted average cost of debt for the nine months ended June 30, 2016 and 2015, inclusive of the fee on the undrawn commitment on the Credit Facility but excluding amendment costs, was 3.94% and 2.48%, respectively.

As of June 30, 2016 and September 30, 2015, we had $159.6 million and $260.4 million of unused borrowing capacity under our Credit Facility, respectively, subject to regulatory restrictions.

On June 30, 2016 and September 30, 2015, we had cash and cash equivalents at fair value of $16.8 million and $21.4 million, respectively, available for investing and general corporate purposes. We believe our liquidity and capital resources are sufficient to take advantage of market opportunities.

Our operating activities used cash of $143.2 million for the nine months ended June 30, 2016, and our financing activities provided cash of $138.5 million for the same period. Our operating activities used cash primarily for our investment activities and our financing activities provided cash primarily from net borrowings under the Credit Facility.

Our operating activities provided cash of $16.4 million for the nine months ended June 30, 2015, and our financing activities used cash of $19.0 million for the same period. Our operating activities provided cash primarily from sales and repayments on our investments and our financing activities used cash primarily from net repayments under the Credit Facility.

RECENT DEVELOPMENTS

Subsequent to quarter-end, we collected approximately five cents per share in a partial litigation settlement related to a former portfolio company of MCG Capital Corporation. Additionally, subsequent to quarter-end we purchased approximately $64.4 million of new investments.

DISTRIBUTIONS

During the three and nine months ended June 30, 2016, we declared distributions of $0.285 and $0.855 per share, respectively, for total distributions of $7.6 million and $22.9 million, respectively. For the same periods in the prior year, we declared distributions of $0.285 and $0.830 per share, respectively, for total distributions of $4.2 million and $12.3 million, respectively. We monitor available net investment income to determine if a tax return of capital may occur for the fiscal year. To the extent our taxable earnings fall below the total amount of our distributions for any given fiscal year, common stockholders will be notified of the portion of those distributions deemed to be a tax return of capital. Tax characteristics of all distributions will be reported to stockholders on Form 1099-DIV after the end of each calendar year and in our periodic reports filed with the Securities and Exchange Commission, or the SEC.
