## **RESULTS OF OPERATIONS**

Set forth below are the results of operations for the three and six months ended March 31, 2019 and 2018.

### **Investment Income**

This compares to investment income for the three and six months ended March 31, 2018, which was \$16.5 million and \$31.3 million, respectively, and was attributable to \$13.2 million and \$26.8 million from first lien secured debt and \$3.3 million and \$4.5 million from second lien secured debt, subordinated debt and preferred and common equity, respectively. Base management fee for the same periods totaled \$2.4 million and \$4.9 million, incentive fee totaled \$2.5 million (including \$2.5 million on net investment income and zero accrued but not payable on realized gains) and \$1.3 million (including \$2.7 million on net investment income and \$(1.4) million accrued but not payable on realized gains), debt related interest and expenses totaled \$5.3 million (including less than \$0.1 million in amendment costs on our multi-currency, senior secured revolving credit facility, or the Credit Facility) and \$15.1 million (including \$4.5 million in Credit Facility amendment costs) and general and administrative expenses totaled \$1.0 million and \$2.2 million, respectively. Base management fee for the same periods totaled \$1.9 million and \$3.8 million, incentive fee totaled \$0.4 million (including \$0.2 million on unrealized gains accrued but not payable) and \$0.5 million (including \$0.4 million on unrealized gains accrued but not payable), debt related interest and expenses totaled \$3.5 million and \$17.0 million (including \$10.9 million in Credit Facility amendment and debt issuance costs 3.83% Series A notes due 2023, or the 2023 Notes), general and administrative expenses totaled \$1.1 million and \$2.2 million and provision for taxes totaled \$0.2 million and \$0.4 million, respectively. The increase in expenses for the three months ended March 31, 2019 compared to the same period in the prior year was primarily due to increase in management and incentive fees and debt related interest and expenses due to the growth of our portfolio in the current period. The decrease in expenses for the six months ended March 31, 2019 compared to the same period in the prior year was primarily due to the expenses incurred in connection with the debt issuance costs on the 2023 Notes in the prior period.

### **Net Investment Income**

Net investment income totaled \$11.8 million and \$22.7 million, or \$0.30 and \$0.59 per share, for the three and six months ended March 31, 2019, respectively. The change in realized gains/losses was primarily due to changes in the market conditions of our investments and the values at which they were realized.

### **Unrealized Appreciation or Depreciation on Investments, the Credit Facility and the 2023 Notes**

For the three and six months ended March 31, 2019, we reported net change in unrealized depreciation on investments of \$12.7 million and \$25.1 million, respectively. The net change in unrealized appreciation/depreciation on our investments compared to the same period in the prior year was primarily due to changes in the capital market conditions, the financial performance of certain portfolio companies and the reversal of unrealized appreciation/depreciation on investments that were realized.

For the three and six months ended March 31, 2019, the Credit Facility and the 2023 Notes had a net change in unrealized appreciation of \$5.6 million and \$0.1 million, respectively. This compares to a net change in net assets resulting from operations of \$15.6 million and \$17.5 million, or \$0.40 and \$0.46 per share, respectively, for the three and six months ended March 31, 2018. The decrease in the net change in net assets from operations compared to the same periods in the prior year was primarily due to depreciation of the portfolio in the current period.

## **LIQUIDITY AND CAPITAL RESOURCES**

Our liquidity and capital resources are derived primarily from proceeds of securities offerings, debt capital and cash flows from operations, including investment sales and repayments, and income earned. Our primary use of funds from operations includes investments in portfolio companies and payments of fees and other operating expenses we incur. We have used, and expect to continue to use, our debt capital, proceeds from the rotation of our portfolio and proceeds from public and private offerings of securities to finance our investment objectives.

The annualized weighted average cost of debt for the six months ended March 31, 2019 and 2018, inclusive of the fee on the undrawn commitment of 0.375% on the Credit Facility, amendment costs and debt issuance costs, was 6.16% and 7.40%, respectively (excluding amendment and debt issuance costs, amounts were 5.08% and 3.91%, respectively).

As of March 31, 2019 and September 30, 2018, we had \$352.3 million and \$333.7 million of outstanding borrowings under the Credit Facility, respectively. The Credit Facility had a weighted average interest rate of 4.47% and 4.25%, exclusive of the fee on undrawn commitments as of March 31, 2019 and September 30, 2018, respectively. As of March 31, 2019 and September 30, 2018, we had \$167.7 million and \$71.3 million of unused borrowing capacity under the Credit Facility, respectively, subject to the regulatory restrictions.

As of March 31, 2019 and September 30, 2018, we had cash equivalents of \$33.7 million and \$72.2 million, respectively, available for investing and general corporate purposes. We believe our liquidity and capital resources are sufficient to take advantage of market opportunities.

Our operating activities used cash of \$35.6 million for the six months ended March 31, 2019, and our financing activities used cash of \$3.5 million for the same period. Our operating activities used cash primarily for our investment activities and our financing activities used cash primarily for distributions paid to stockholders.

Our operating activities used cash of \$111.7 million for the six months ended March 31, 2018, and our financing activities provided cash of \$142.1 million for the same period. Our operating activities used cash primarily for our investment activities and our financing activities provided cash primarily from a follow-on equity offering and the issuance of the 2023 Notes, partially offset by net repayments under the Credit Facility.

## DISTRIBUTIONS

During the three and six months ended March 31, 2019, we declared distributions of \$0.285 and \$0.57 per share, respectively, for total distributions of \$11.0 million and \$22.1 million, respectively. For the same periods in the prior year, we declared distributions of \$0.285 and \$0.57 per share, respectively, for total distributions of \$11.0 million and \$21.5 million, respectively. We monitor available net investment income to determine if a return of capital for tax purposes may occur for the fiscal year. To the extent our taxable earnings fall below the total amount of our distributions for any given fiscal year, stockholders will be notified of the portion of those distributions deemed to be a tax return of capital. Tax characteristics of all distributions will be reported to stockholders subject to information reporting on Form 1099-DIV after the end of each calendar year and in our periodic reports filed with the Securities and Exchange Commission, or the SEC.
