RESULTS OF OPERATIONS

Set forth below are the results of operations for the three and nine months ended June 30, 2024 and 2023.

Investment Income

For the three and nine months ended June 30, 2024, investment income was \$48.5 million and \$130.8 million, respectively, which was attributable to \$42.7 million and \$114.9 million from first lien secured debt and \$5.8 million and \$15.9 million from other investments, respectively. For the three and nine months ended June 30, 2023, investment income was \$37.7 million and \$103.6 million, respectively, which was attributable to \$30.4 million and \$88.6 million from first lien secured debt and \$7.3 million and \$15.0 million from other investments, respectively. The increase in investment income compared to the same period in the prior year was primarily due to the increase in the size of our debt portfolio.

Expenses

For the three and nine months ended June 30, 2024, expenses totaled \$27.3 million and \$71.1 million, respectively and were comprised of: \$16.3 million and \$39.9 million of debt related interest and expenses, \$3.9 million and \$10.3 million of base management fees, \$5.3 million and \$14.9 million of performance-based incentive fees, \$1.5 million and \$5.0 million of general and administrative expenses, \$0.2 million and \$0.9 million of taxes, and \$0.1 million and \$0.1 million of Credit Facility amendment costs. For the three and nine months ended June 30, 2023, expenses totaled \$19.2 million and \$54.6 million, respectively and were comprised of: \$10.0 million and \$29.6 million of debt related interest and expenses, \$2.8 million and \$8.6 million of base management fee, \$4.6 million and \$12.2 million of performance-based incentive fee, \$1.6 million and \$3.3

million of general and administrative expenses and \$0.2 million and \$0.8 million of taxes. The increase in expenses compared to the same period in the prior year was primarily due to the increase in interest expense from increased borrowings and an increase in base management fees as a result of the increase in our investment portfolio.

Net Investment Income

For the three and nine months ended June 30, 2024, net investment income totaled \$21.2 million or \$0.31 per share, and \$59.7 million or \$0.95 per share, respectively. For the three and nine months ended June 30, 2023, net investment income totaled \$18.5 million or \$0.36 per share, and \$49.0 million or \$1.02 per share, respectively. The increase in net investment income was primarily due to an increase in investment income partially offset by an increase in expenses compared to the same period in the prior year.

Net Realized Gains or Losses

For the three and nine months ended June 30, 2024, net realized gains (losses) totaled \$(0.4) million and \$0.6 million, respectively. For the three and nine months ended June 30, 2023, net realized (losses) totaled \$(6.1) million and \$(13.8) million, respectively. The change in net realized gains (losses) compared to the same period in the prior year was primarily due to changes in the market conditions of our investments and the values at which they were realized.

Unrealized Appreciation or Depreciation on Investments and Debt

For the three and nine months ended June 30, 2024, we reported net change in unrealized appreciation (depreciation) on investments of \$(4.0) million and \$10.0 million, respectively. For the three and nine months ended June 30, 2023, we reported net change in unrealized appreciation (depreciation) on investments of \$(1.1) million and \$(22.0) million, respectively. As of June 30, 2024 and September 30, 2023, our net unrealized appreciation (depreciation) on investments totaled \$(15.7) million and \$(25.7) million, respectively. The net change in unrealized appreciation (depreciation) on our investments compared to the same period in the prior year was primarily due to the operating performance of the portfolio companies within our portfolio and changes in the capital market conditions of our investments.

For the three and nine months ended June 30, 2024, our Credit Facility had a net change in unrealized appreciation (depreciation) of less than \$0.1 million and less than \$(0.1) million, respectively. For the three and nine months ended June 30, 2023, our Credit Facility and the 2023 Notes had a net change in unrealized appreciation (depreciation) of \$(5.8) million and \$(4.8) million, respectively. As of June 30, 2024 and September 30, 2023, the net unrealized appreciation (depreciation) on the Credit Facility and the 2023 Notes totaled less than \$0.1 million and zero, respectively. The net change in net unrealized appreciation or (depreciation) compared to the same period in the prior year was primarily due to changes in the capital markets.

Net Change in Net Assets Resulting from Operations

For the three and nine months ended June 30, 2024, net increase (decrease) in net assets resulting from operations totaled \$16.9 million or \$0.25 per share, and \$70.5 million or \$1.12 per share, respectively. For the three and nine months ended June 30, 2023, net increase (decrease) in net assets resulting from operations totaled \$5.6 million or \$0.11 per share and \$11.2 million or \$0.23 per share, respectively. The net increase or (decrease) from operations compared to the same period in the prior year was primarily due to operating performance of our portfolio and changes in capital market conditions of our investments along with change in size and cost yield of our debt portfolio and costs of financing.

LIQUIDITY AND CAPITAL RESOURCES

Our liquidity and capital resources are derived primarily from cash flows from operations, including income earned, proceeds from investment sales and repayments, and proceeds of securities offerings and debt financings. Our primary use of funds from operations includes investments in portfolio companies and payments of fees and other operating expenses we incur. We have used, and expect to continue to use, our debt capital, proceeds from our portfolio and proceeds from public and private offerings of securities to finance our investment objectives and operations.

As of June 30, 2024 and September 30, 2023, we had \$218.9 million and \$9.4 million in outstanding borrowings under the Credit Facility, respectively, and the weighted average interest rate was 7.7% and 7.7%, respectively. As of June 30, 2024 and September 30, 2023, we had \$392.1 million and \$376.6 million of unused borrowing capacity under the Credit Facility, as applicable, respectively, subject to leverage and borrowing base restrictions.

As of June 30, 2024 and September 30, 2023, we had cash equivalents of \$84.6 million and \$100.6 million, respectively, available for investing and general corporate purposes. We believe our liquidity and capital resources are sufficient to allow us to efficiently operate the business.

For the nine months ended June 30, 2024, our operating activities used cash of \$509.6 million and our financing activities provided cash of \$493.7 million. Our operating activities used cash primarily due to our investment activities and our financing activities provided cash primarily due to borrowings under our Credit Facility, proceeds from public offerings under our ATM program and proceeds from the 2036 Asset-Backed Debt partially offset by the repayment of the 2023 Notes.

For the nine months ended June 30, 2023, our operating activities provided cash of \$62.4 million and our financing activities used cash of \$54.2 million. Our operating activities provided cash primarily realized from our investment activities and our

financing activities used cash primarily due to repayments under our Credit Facility and principal repayment of our 2023 Notes partially offset by proceeds from our equity offering.

DISTRIBUTIONS

During the three and nine months ended June 30, 2024, we declared distributions of \$0.3075 and \$0.9225 per share for total distributions of \$21.0 million and \$57.9 million, respectively. During the three and nine months ended June 30, 2023, we declared distributions of \$0.3025 and \$0.8775 per share for total distributions of \$15.4 million and \$42.4 million, respectively. We monitor available net investment income to determine if a return of capital for tax purposes may occur for the fiscal year. To the extent our taxable earnings fall below the total amount of our distributions for any given fiscal year, stockholders will be notified of the portion of those distributions deemed to be a tax return of capital. Tax characteristics of all distributions will be reported to stockholders subject to information reporting on Form 1099-DIV after the end of each calendar year and in our periodic reports filed with the SEC.

RECENT DEVELOPMENTS
