RESULTS OF OPERATIONS

Set forth below are the results of operations for the three months ended December 31, 2011.

Investment Income

Investment income for the three months ended December 31, 2011 was $2.5 million and was primarily attributable to $2.0 million from senior secured loans, $0.3 million from second lien secured debt investments and $0.2 million from subordinated debt investments. We continue to find attractive investment opportunities and will rotate out of lower rate investments to higher rate loans.

Expenses

Expenses for the three months ended December 31, 2011 totaled $1.1 million. Base management fees for the same period totaled $0.3 million, Credit Facility related expenses totaled $0.3 million and general and administrative expenses totaled $0.5 million. We expect our base management fee and senior secured credit facility, or the Credit Facility, expenses to continue to increase as a result of growth in our portfolio and debt.

Net Investment Income

Net investment income totaled $1.4 million, or $0.20 per share, for the three months ended December 31, 2011.

Net Realized Gains or Losses

Sales and repayments of investments for the three months ended December 31, 2011 totaled $22.3 million and realized gains totaled $0.3 million due to sales and repayments of our debt investments.

Unrealized Appreciation or Depreciation on Investments and Credit Facility

For the three months ended December 31, 2011, we reported unrealized appreciation on our investments of $1.1 million. As of December 31, 2011 and September 30, 2011, net unrealized depreciation on investments totaled $3.0 million and $4.1 million, respectively.

For the three months ended December 31, 2011, our Credit Facility value decreased by $0.4 million. As of December 31, 2011, net unrealized depreciation on our Credit Facility totaled $0.4 million. As of September 30, 2011, we had no appreciation or depreciation on our Credit Facility.

Net Increase in Net Assets Resulting from Operations

Net increase in net assets resulting from operations totaled $3.1 million, or $0.45 per share, for the three months ended December 31, 2011. This increase in net assets from operations was due to the continued growth in net investment income as a result of the growth in our portfolio.

LIQUIDITY AND CAPITAL RESOURCES

Our liquidity and capital resources are derived from our initial public offering, Credit Facility, cash flows from operations, including investment sales and repayments, and income earned. Our primary use of funds from operations includes investments in portfolio companies and payments of dividends and operating expenses, including management fees. We have used, and expect to continue to use, our Credit Facility proceeds, the rotation of our portfolio and proceeds from public and private offerings of securities to finance our investment objectives.

On June 23, 2011, PennantPark Floating Rate Funding I, LLC, or Funding I, entered into the Credit Facility with affiliates of SunTrust Bank, or the Lender, an asset-backed commercial paper conduit administered by SunTrust Robinson Humphrey, Inc. The Credit Facility allows Funding I to borrow up to $100.0 million and contains an accordion feature whereby the Credit Facility can be expanded to $600.0 million, subject to satisfaction of certain conditions. As of December 31, 2011 and September 30, 2011, Funding I had $35.1 million and $24.7 million of outstanding borrowings under the Credit Facility, respectively, had an interest rate of 2.59% and 2.53%, respectively, excluding the 0.50% undrawn commitment fee, and had $64.9 million and $75.3 million available, respectively, subject to restrictions and covenants.

During the Credit Facility's first three years, or the revolving period, it bears interest at a commercial paper rate that approximates LIBOR plus 225 basis points, and after the revolving period, the rate sets to LIBOR plus 425 basis points for the remaining two years. The Credit Facility is secured by all of the assets held by Funding I. Both PennantPark Floating Rate Capital Ltd. and Funding I have made customary representations and warranties and are required to comply with various covenants, reporting requirements and other customary requirements for similar credit facilities.

At December 31, 2011, we had cash equivalents of $4.7 million available for investing and general corporate purposes. We believe our liquidity and capital resources are sufficient to take advantage of market opportunities.

Our operating activities used cash of $11.3 million for the three months ended December 31, 2011, and our financing activities provided net cash proceeds of $9.0 million for the same period. Our operating activities used cash primarily from net investing that was provided from net draws under the Credit Facility.

DISTRIBUTIONS

During the three months ended December 31, 2011, we declared to stockholders distributions of $0.21 per share for total distributions of $1.4 million. Distributions are paid from taxable earnings and may include a return of capital and/or capital gains. The specific tax characteristics of the distributions will be reported to stockholders on Form 1099-DIV after the end of the calendar year and in our periodic reports filed with the Securities and Exchange Commission.
