RESULTS OF OPERATIONS

Set forth below are the results of operations for the three and six months ended March 31, 2025 and 2024.

Investment Income

For the three and six months ended March 31, 2025 investment income was \$61.9 million and \$128.9 million, respectively, which was attributable to \$56.2 million and \$117.2 million from first lien secured debt and \$5.7 million and \$11.7 million from other investments, respectively. For the three and six months ended March 31, 2024, investment income was \$44.4 million and \$82.3 million, respectively, which was attributable to \$39.0 million and \$72.2 million from first lien secured debt and \$5.4 million and \$10.1 million from other investments, respectively. The increase in investment income for the three and six months ended March 31, 2025, was primarily due to the increase in the size of the debt portfolio.

Expenses

For the three and six months ended March 31, 2025, expenses totaled \$36.9 million and \$74.0 million, respectively and were comprised of: \$22.5 million and \$44.9 million of debt related interest and expenses, \$5.6 million and \$10.9 million of base management fees, \$6.3 million and \$13.8 million of performance-based incentive fees, \$1.9 million and \$3.6 million of general and administrative expenses, \$0.2 million and \$0.5 million of taxes and \$0.4 million and \$0.4 million in Credit Facility amendment costs. For the three and six months ended March 31, 2024, expenses totaled \$25.3 million and \$43.8 million, respectively and were comprised of: \$14.7 million and \$23.6 million of debt related interest and expenses, \$3.4 million and \$6.4 million of base management fees, \$4.8 million and \$9.6 million of performance-based incentive fees, \$1.8 million and \$3.5 million of general and administrative expenses and \$0.5 million and \$0.7 million of taxes. The increase in expenses for the three and six months ended March 31, 2025, was primarily due to the increase in interest expense from increased borrowings and an increase in base management fees and incentive fee as a result of the increase in our investment portfolio.

Net Investment Income

For the three and six months ended March 31, 2025 net investment income totaled \$25.0 million or \$0.28 per share, and \$55.0 million or \$0.64 per share, respectively. For the three and six months ended March 31, 2024, net investment income totaled \$19.1 million or \$0.31 per share, and \$38.5 million or \$0.64 per share, respectively. The increase in net investment income for the three and six months ended March 31, 2025, was primarily due to an increase in investment income partially offset by an increase in expenses.

Net Realized Gains or Losses

For the three and six months ended March 31, 2025 net realized gains (losses) totaled \$(3.5) million and \$23.1 million, respectively. For the three and six months ended March 31, 2024, net realized gains (losses) totaled \$4.0 million and \$0.9 million, respectively. The change in net realized gains (losses) was primarily due to changes in the market conditions of our investments and the values at which they were realized.

Unrealized Appreciation or Depreciation on Investments and Debt

For the three and six months ended March 31, 2025 we reported net change in unrealized appreciation (depreciation) on investments of \$(20.8) million and \$(49.7) million, respectively. For the three and six months ended March 31, 2024, we reported net change in unrealized appreciation (depreciation) on investments of \$7.7 million and \$13.9 million, respectively. As of March 31, 2025 and September 30, 2024, our net unrealized appreciation (depreciation) on investments totaled \$(61.2) million and \$(11.4) million, respectively. The net change in unrealized appreciation (depreciation) on our investments was primarily due to the operating performance of the portfolio companies within our portfolio, changes in the capital market conditions of our investments and realization of investments.

For the three and six months ended March 31, 2025, our Credit Facility had a net change in unrealized appreciation (depreciation) of less than \$0.1 million and \$0.1 million, respectively. For the three and six months ended March 31, 2024, our Credit Facility had a net change in unrealized appreciation (depreciation) of less than \$0.1 million and (\$0.1) million, respectively. As of March 31, 2025 and September 30, 2024, the net unrealized appreciation (depreciation) on the Credit Facility totaled approximately \$0.1 million and zero, respectively. The net change in net unrealized (appreciation) or depreciation was primarily due to changes in the capital markets.

Net Change in Net Assets Resulting from Operations

For the three and six months ended March 31, 2025, net increase (decrease) in net assets resulting from operations totaled \$1.2 million or \$0.01 per share and \$29.6 million or \$0.34 per share, respectively. For the three and six months ended March 31, 2024, net increase (decrease) in net assets resulting from operations totaled \$31.1 million or \$0.51 per share and \$53.6 million, or \$0.89 per share, respectively. The net increase or (decrease) from operations for the three and six months ended March 31, 2025, was primarily due to operating performance of our portfolio and changes in capital market conditions of our investments along with change in size and cost yield of our debt portfolio and costs of financing.

LIQUIDITY AND CAPITAL RESOURCES

Our liquidity and capital resources are derived primarily from cash flows from operations, including income earned, proceeds from investment sales and repayments, and proceeds of securities offerings and debt financings. Our primary use of funds from operations includes investments in portfolio companies and payments of fees and other operating expenses we incur. We have used, and expect to continue to use, our debt capital, proceeds from our portfolio and proceeds from public and private offerings of securities to finance our investment objectives and operations.

In February 2025 the Company, through the 2037 Securitization Issuer, completed a \$474.6 million term debt securitization of which we retained \$85.1 million of subordinated notes and \$28.5 million of BBB-(sf) Class D Notes of the debt securitization. The weighted average credit spread is 1.59%. This 2037 Asset-Backed Debt is scheduled to mature on April 20, 2037.

For the six months ended March 31, 2025 and 2024, the annualized weighted average cost of debt, inclusive of the fee on the undrawn commitment on the Credit Facility, amendment costs and debt issuance costs, was 6.8% and 7.1%, respectively. As of March 31, 2025 and September 30, 2024, we had cash equivalents of \$111.4 million and \$112.1 million, respectively, available for investing and general corporate purposes. We believe our liquidity and capital resources are sufficient to take advantage of market opportunities.

During the three and six months ended March 31, 2025 we issued 11,562,000 shares and 18,838,000 shares of our common stock through the 2024 ATM Program, respectively at an average price of \$11.34 per share and \$11.35 per share raising \$131.0 million and \$213.2 million of net proceeds after commissions to the Sales Agents and inclusive of proceeds from the Investment Adviser to ensure that all shares were sold at or above NAV, respectively. During the three and six months ended March 31, 2024, we issued 4,493,436 shares of common stock through the 2022 ATM Program at an average price of \$11.35 per share, raising \$51.0 million of net proceeds after commissions to the Sales Agents and inclusive of proceeds from the Investment Adviser to ensure that all shares were sold at or above NAV, respectively.

For the six months ended March 31, 2025, our operating activities used cash of \$350.8 million and our financing activities provided cash of \$350.1 million. Our operating activities used cash primarily due to our investment activities and our financing activities provided cash primarily due to borrowings under our Credit Facility, proceeds from the 2037 Asset-Backed debt and proceeds from the public offerings under our 2024 ATM Program.

During the three and six months ended March 31, 2024, we declared distributions of \$0.3075 and \$0.615 per share for total distributions of \$18.8 million and \$36.9 million, respectively. We monitor available net investment income to determine if a return of capital for tax purposes may occur for the fiscal year. To the extent our taxable earnings fall below the total amount of our distributions for any given fiscal year, stockholders will be notified of the portion of those distributions deemed to be a tax return of capital.
